

Call for Papers for special session on

Cyber Social Computing and Cyber-Enabled Applications (CSC&CEA)

Aims and Scope

In the past several years, we have seen dramatic advancement in many application domains enabled by the use of computing and networking technologies, as well as computational intelligence algorithms and computing methodologies. This development has resulted in many emerging highly interdisciplinary research areas, such as Internet of Things, Smart Cities, Big Data, Social Computing, and a variety of cyber-enabled applications. These new technologies are transforming our society, and have enormous economic impact from various aspects beyond people's expectation. This special session, focusing on Cyber Social Computing and Cyber-Enabled Applications, aims to bring together researchers and engineers from all related areas to disseminate their findings and foster a community to exchange ideas and seek potential collaborations, so as to further the advancement of the state of the art of these emerging paradigms and technologies.

Topics

This special session solicits original, unpublished papers (including work-in-progress papers) on the research and development closely related to Cyber Social Computing and Cyber-Enabled Applications. Topics of interest include, but not limited to:

- User behavior analysis and modeling in social cyberspace
- User influence measure and model in social cyberspace
- Community detection and structural analysis in social cyberspace
- Information diffusion and sharing across multi social cyberspaces
- Semantic social network analysis
- Data-driven interdisciplinary modeling and analysis
- Trust and reputation in social cyberspace
- Privacy and security in social cyberspace
- Cyber-enabled smart learning, healthcare services

Important Dates

Submission Due:	August 15, 2017
Acceptance Notification Due:	August 31, 2017
Paper Registration Due:	September 17, 2017
Camera-ready Manuscript Due:	September 21, 2017

Special Session Organizers

Weimin Li, Shanghai University, China wml@shu.edu.cn
Qun Jin, Waseda University, Japan

Submission & Publication

Interested authors can submit full technical papers with 4-6 pages. All submissions should follow the IEEE CS format. Accepted and presented papers will be published in the proceedings of CyberSciTech 2017 by IEEE CPS (IEEE Digital Library and EI-indexed). At least one author of each accepted paper is required to register and present their work at CyberSciTech 2017. Otherwise the paper will not be included in the proceedings. Selected excellent papers, after further extension and revision, will be recommended to special issues of prestige international journals (SCI/EI indexed).
