

2017 IEEE Cyber Science and Technology Congress (CyberSciTech 2017)

Orlando, USA

November 6-10, 2017

<http://cyberscitech.net/2017/>

*Towards Cyber-Enabled New Sciences,
Technologies and Applications
for a Better Society*

Co-located with *IEEE DASC 2017, PICom 2017 and DataCom 2017*

Honorary Chairs

Mazin Yousif, *T-Systems, International, USA*
Albert Zomaya, *The University of Sydney, Australia*

General Chairs

Song Guo, *Hong Kong Polytechnic Univ., Hong Kong*
Yi Qian, *University of Nebraska-Lincoln, USA*

General Executive Chair

Jun Wang, *University of Central Florida, USA*

Program Chairs

Kevin I-Kai Wang, *The Univ. of Auckland, New Zealand*
Kejie Lu, *University of Puerto Rico at Mayagüez, USA*
Periklis Chatzimisios, *ATEITHE, Greece*
Boon-Chong Seet, *AUT, New Zealand*

Workshop/Tutorial Chairs

Yaser P. Fallah, *University of Central Florida, USA*
Xiulong Liu, *Hong Kong Polytechnic Univ., HK*
Jiangtao Luo, *Chongqing Univ. of Posts and Tele., China*

Special Session Chairs

Qingyong Li, *Beijing Jiaotong University, China*
Naohiro Hayashibara, *Kyoto Sangyo University, Japan*

Demo/Poster Chairs

Feng Ye, *University of Dayton, USA*
Huawei Huang, *The University of Aizu, Japan*

Special Issue Chair

Xiaokang Zhou, *Shiga University, Japan*

Publicity Chairs

Ah-Lian Kor, *Leeds Beckett University, UK*
Md Zakirul Alam Bhuiyan, *Fordham University, USA*
Kun Wang, *Nanjing Univ. of Posts and Tele., China*
Sami Habib, *Kuwait University, Kuwait*

Financial Chair

Xunchao Chen, *University of Central Florida, USA*

Local Arrangement Chair

Deliang Fan, *University of Central Florida, USA*

Steering Committee

Jianhua Ma (Chair), *Hosei University, Japan*
Mazin Yousif, *T-Systems, International, USA*
Albert Zomaya, *The University of Sydney, Australia*
Qun Jin, *Waseda University, Japan*
Hui-Huang Hsu, *Tamkang University, Taiwan*
Laurence T. Yang, *St. Francis Xavier University, Canada*

Program Committee

The modern digitized world has led to the emergence of a new paradigm on global information networks and infrastructures known as Cyberspace and the studies of Cybernetics, which bring seamless integration of physical, social and mental spaces. Cyberspace is becoming an integral part of our daily life from learning and entertainment to business and cultural activities. As expected, this whole concept of Cybernetics brings new challenges that need to be tackled.

To address these emerging challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social and cyber-mental technologies together in a coherent manner to deliver the vision of Cyberspace. This is the aim of the 2017 IEEE Cyber Science and Technology Congress (CyberSciTech 2017) to offer a common platform for scientists, researchers and engineers to share their latest ideas and to exchange the latest developments and outcomes in their research and technologies, with a broad scope of cyber-related science, technology and application topics. CyberSciTech 2017 covers four main research tracks including but not limited to the following areas or topics.

Track 1: Cyber Science and Fundamentals

Cyberspace Structure & Property, Cyber-world Constituents & Evolution, Cyberspace & Cyber-world Modeling, Cyber-enabled Hyper-connection, Cyber Visualization, Web Science, Internet Science, Data Science, Cyber Physical Science, Cyber Social Science, Cyber Human Science, Cyber Life Science, Cyber Physics, Cyber Biology, Cyber Ecology, Cyber Dynamics, Cyber Security

Track 2: Cyber Physical Computing and Systems

Cyber-Physical Systems, Cyber-Physical Interface, Cyber-Physical Hybrid Intelligence, Ambient Intelligence, Intelligent Transportation Systems, Networked Robots, Virtual Reality, Augmented Reality, Wearable/Bearable Computing, Cyborg, Internet of Things (IoT), Smart Object, Smart Sensor, Smart Environment, Smart City, Smart Agriculture, Smart Manufacture, Smart Healthcare, Smart Service, Smart Cloud, Smart World

Track 3: Cyber Social Networks and Computing

Cyber-Social Networks, Cyber-Sociology, Cyber-Culture, Cyber-Economy, Cyber-Social Evolution, Cyber-Social Sensing, Cyber-Social Simulation, Cyber-Behavior Analytics, Cyber-Crowdsourcing, Cyber-Trust, Cyber-Privacy, Cyber-Rights, Cyber-Crime, Cyber-Law, Cyber-Telepathy, Anticipatory Computing

Track 4: Cyber Life, Intelligence and Mental Computing

Cyber-Brain, Cyber-Individual, Cyber-Life, Cyber/Digital Clone, Cyber-Human Evolution, Cyber-Psychology, Cyber-Cognition, Cyber-Affordance, Cyber-Human Analytics, Cyber-based Learning, Cyber-Thinking, Cyber-Creation, Affective Computing, Emotional Computing, Mental Computing, Sentiment Analysis

Important Dates

Workshop/Special Session Proposal Due:	February 28, 2017
Paper Submission Due:	May 10, 2017-July 10, 2017
Author Notification:	July 10, 2017 August 10, 2017
Camera-Ready Manuscript Due:	August 15, 2017 September 1, 2017

Submission and Publication

Authors are invited to submit their original work that has not previously been submitted or published in any other venue. Submitted papers need to abide by IEEE Computer Society formats. Final papers must be formatted accordingly (see "[IEEE Manuscript Templates](#)") and submitted via EDAS <https://edas.info/newPaper.php?c=23118>.

Regular, work-in-progress, workshop/special session, poster (short) papers all need to be in IEEE CS format and submitted following the same instruction on the CyberSciTech 2017 congress web site. A regular, workshop, or special session paper should be between 6-8 pages. A work-in-progress paper should be between 4-6 pages whereas a poster (short) paper should be between 2-4 pages.

All accepted papers in the regular, work-in-progress, workshops, special sessions and posters will be published in an IEEE Computer Society proceedings (EI indexed). Extended versions of selected excellent papers will be considered for publication in special issues of prestige journals (<http://cyber-science.org/2017/si.html>).
