

BigCyberSecurity 2022

The 4th IEEE International Workshop on Big Data Analytics for Cyber Security and Defence

In conjunction with 7th IEEE Cyber Science and Technology Congress (CyberSciTech 2022)
Sept. 12-15, 2022, Calabria, Italy

CALL FOR PAPERS

Due to the rising intensity of cyber-attacks, information leakage incidents and other security breaches are continuously occurring and result in huge financial losses and other detrimental consequences. Therefore, it is urgent to protect cyber systems including hardware, software and data against advanced cyber-attacks such as zero-day attacks and advanced persistent threats. Cyber-attacks are becoming more sophisticated and difficult to detect and fight. Big data analytics is an appealing idea to address this challenge, which is effective for examining and detecting irregularities and abnormal patterns. Big data analytics for cyber security and defence involve the ability to collect and gather massive amounts of data in multiple sources (e.g., Internet, network traffic, and online social networks), the ability to identify, analyze, and validate security vulnerabilities, and the ability to predict, detect, and stop cyber-attacks. The goal of the workshop is to bring together a community of researchers and practitioners who study problems at the intersection of cyber science, data science, security, and network science.

TOPICS:

Workshop suggested topics include, not exhaustively, empirical and theoretical studies of the following:

- System security
- IoT security
- Network security
- Hardware security
- Mobile and cloud computing security
- Social network security
- Anomaly & Intrusion Detection
- Data-driven security and measurement studies

Program Chairs:

Hong Xie

Chongqing University, China
(xiehong2018@cqu.edu.cn)

Neil Zhenqiang Gong

Duke University, USA
(neil.gong@duke.edu)

Technical Program Committee

Kechao Cai, Sun Yat-sen University, China
Yuchong Hu, Huazhong University of Science and Technology, China
Qun Huang, Peking University, China
Jingwei Li, University of Electronic Science and Technology of China, China
Yongkun Li, University of Science and Technology of China, China
Xiuhua Li, Chongqing University, China
Qin Tao, Xi'an Jiaotong University, China
Pinghui Wang, Xi'an Jiaotong University, China
Yuedong Xu, Fudan University, USA
Jinbei Zhang, Sun Yat-sen University, China
Junzhou Zhao, Xi'an Jiaotong University, China

Important Dates

Submission Due: **June 1, 2022**
Authors Notification: **July 1, 2022**
Camera-ready: **July 15, 2022**

Submission:

All accepted papers will be published by IEEE in Conference Proceedings (IEEE-DL and EI indexed).
