

The 3rd International Workshop on Cyber System Security and Intelligence (CSSI 2022)

September 12-15, 2022, Calabria, Italy

In the era of big data, we are more dependent on the network, so the security of cyberspace has become a very important issue. Due to the increasing number and complexity of network attacks, the insufficient resources of security operation analysis organizations are in urgent need of the help of artificial intelligence. Using artificial intelligence technology, threat information can be sorted out from a large amount of data, providing immediate insight, helping people finding real threats, and greatly improving response speed. For discussing the development trend, academic trends, latest achievements, hot issues and application technologies and solutions of Cyberspace Security in all directions, so as to promote exchanges between Cyberspace Security academia and industry, experts, scholars, engineers and technicians engaged in Cyberspace Security and artificial intelligence academic research, application research and development and product evaluation are welcome to attend the special session.

TOPICS

Special session suggested topics include, not exhaustively, empirical and theoretical studies of the following:

- Privacy issues
- Hardware-Based security
- Security of Web-based Applications and Services
- Operating Systems and Database Security
- Security in Cloud Computing
- Security in Social Networks
- Multimedia and Document Security
- Enterprise Systems Security
- Distributed and Pervasive Systems Security
- Surveillance Systems
- Authentication and Access Control Systems
- Biometrics Applications
- Biometrics standards and standardization
- Cyber-Crimes
- Cyber Insider Attacks
- Cyber Intelligence
- Intelligent Privacy-preserving and anonymization technologies
- Secure and private computational intelligence algorithm design
- Computational intelligence for cyberspace intrusion detection
- Computational intelligence for digital forensics
- Computational intelligence for risk management
- Computational intelligence for data-driven cyberspace security
- Computational intelligence for information privacy

Publication

All accepted papers will be published by IEEE in Conference Proceedings (IEEE-DL and EI indexed).

General Chairs

Zhen Liu, NIAS, Japan
Jianwei Yin, Zhejiang U., China
Bo Yang, Jilin U., China

Program Chairs

Qiang Zhang, DUT, China
Zhigeng Pan, NUIST, China
Liangmin Wang, Jiangsu U, China

Publicity Chairs

Yuanning Liu, Jilin U, China
Jien Kato, Ritsumeikan U., Japan

Technical Program Committee

Jinsong Wang, TJUT, China
Xiaohui Wei, Jilin U, China
Xiangshi Ren, KUT, Japan
Wenjun Yang, TJUT, China
Zhe Liu, Jiangsu U, China
Lei Shi, NT CVTE, China
Liucun Zhu, BBWU, China
Xiaohua Zhang, HIT, Japan
Li Fu, QNU, China
Bofeng Zhang, Shanghai U, China
Chaohai, Zhang, NUAA, China
Hongbing Zhu, HKGU, Japan
Jinge Wang, Jinjiang C. SCU, China
Chundong Wang, TJUT, China
Xiaolong Zhang, WHUT, China
Lidong Yang, IMUST, China
Shanjun Zhang, Kanagawa U, Japan
Gangjun Li, Chengdu TU, China
Guofeng Li, SUFE, China
Guoyue Chen, Akita F. U, Japan
Liyang Dong, Jilin U., China
Qi Wang, NIAS, Japan
Mithun Mukherjee, NUIST, China
Xiaodong Zhu, Jilin U., China

Steering Committee

Haixing Zhao, QHNU, China
Xiaopeng Wei, DUT, China
Yuqing Song, Jiangsu U., China
Yi Zhang, Sichuan U., China
Zhen Liu, NIAS, Japan

Important Dates

Submission Due: June 1, 2022
Authors Notification: July 1, 2022
Camera-ready: July 15, 2022

Technical Supporters
